

# Organic tea tree oil

ORIGIN: KENYA

SUSTAINABLE & ETHICALLY SOURCED

## Ethically sourced, organic tea tree oil from Kenya

Our organic tea tree oil is grown on the foothills of Mount Kenya. In addition to a fair deal, Fair Trade Funds have been used to fund solar panels and school fees.

“The fund has been used to provide scholarships for the workers' children, as education isn't free in Kenya, so this makes a big difference.”

Miquel Boix Tomas, fair trade partner

On top of the fund, we have funded an extra 14 water tanks to help families meet their everyday household needs.

Farm manager Kigo

Neal's Yard Remedies sources through an independent trader and exporter working directly with the producer. We have also visited the project ourselves to build our relationship and better understand people's needs. Our last visit was in 2013.
